## Experience

- Oktober 2022 - Present 📍 Tangerang Selatan

 Full-stack Developer  
**Universitas Pembangunan Jaya**

Working at Universitas Pembangunan Jaya as a Full-Stack Developer, my responsibilities include building new systems as needed, as well as developing and maintaining various features for existing applications. I am involved in both front-end and back-end development, ensuring seamless integration between user interfaces and server-side functionalities.
- Februari 2020 - Juni 2022 📍 Tangerang Selatan

 Full-Stack Developer  
**PT. Alona Indonesia Raya**

I have been working at this company for over 2 years as a Full-Stack Developer. My responsibilities include Backend, Frontend, DevOps, and Database Administration. I have also served as the Team Lead on one of our application projects. This project was a landing page builder system that can integrate and connect with external domains. The system is also integrated with Google Analytics, Google Ads, Facebook Ads, and TikTok Ads. It offers a 1-month trial and users can choose to subscribe. The payment system uses one of the payment gateways, Midtrans.
- May 2019 - Juli 2019 📍 Jakarta Timur

 Backend Developer  
**PT. Inovasi Dinamika Solusi**

I have been working at this company as a Backend Developer, responsible for developing RESTful APIs and for the development and maintenance of various features for existing applications.

and others

## Education
